

EPIC Online Technology Meeting on Photonics for Solar Energy Systems

David Ziegler, Head Of Industrialization, david.ziegler@insolight.ch

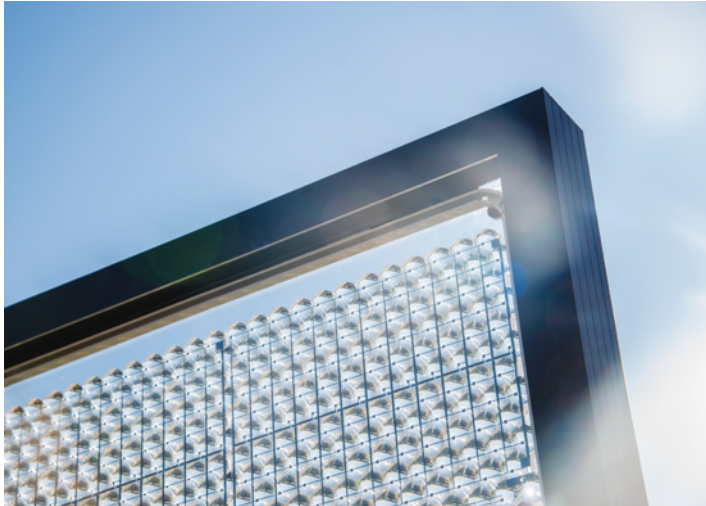

10 Mio € for pilot assembly line

Horizon 2020
European Union Funding
for Research & Innovation

Up to 29% efficiency, 4-5x more efficient than other translucent solar modules

Smart translucency with direct light regulation yielding **up to 75%** of light transmission

Strong economic benefits: competitive cost of electricity, land yield, OPEX reductions

As easy to mount as conventional solar panels

25 years reliability in the field

We are looking for suppliers and contract manufacturers to assemble our modules

THANK YOU!
