

- We **enable 400G/800G connectivity infrastructure** that supports high-bandwidth demand drivers
- Our **unique SerDes technology enables** low-power, high-performance, cost effective connectivity solutions

WHAT WE DO

400G/800G TECHNOLOGY

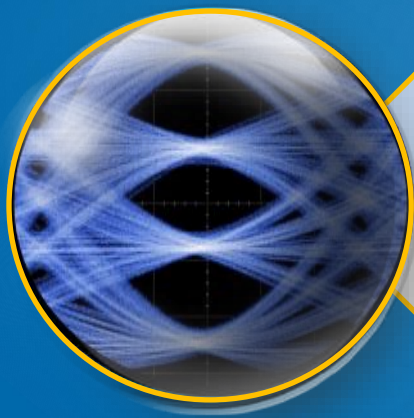

WHAT WE OFFER

400G/800G TECHNOLOGY

High Performance
25G/50G/100G
SerDes Technology

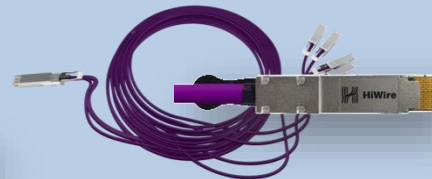

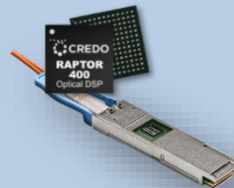

Retimers • Gearboxes
MACsecs

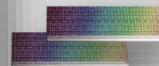

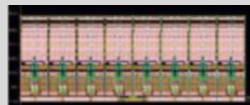

Optical Module
DSPs

Active Electrical
Cables

Product
Solutions

Custom ASIC
Solutions

SerDes IP Licensing

2.5D and MCM SerDes Chiplets

WHAT WE LOOK FOR

400G/800G TECHNOLOGY

- High Volume Markets
- High Bandwidth Requirements
- Low-Power and Low-Cost Requirements
- Alignment with Key Market Demand Drivers
- Alignment with Partners to Deliver Proven Solutions
- Alignment with Key Industry Forums to Ensure InterOp
