

LED PROJECTION SOLUTIONS

EPIC MEETING ON MICRO-LED FOR AUTOMOTIVE LIGHTING
SEPTEMBER 21ST, 2020
DR. CHRISTOPH GÄRDITZ

LED Projection

A proven approach in many areas

Entertainment

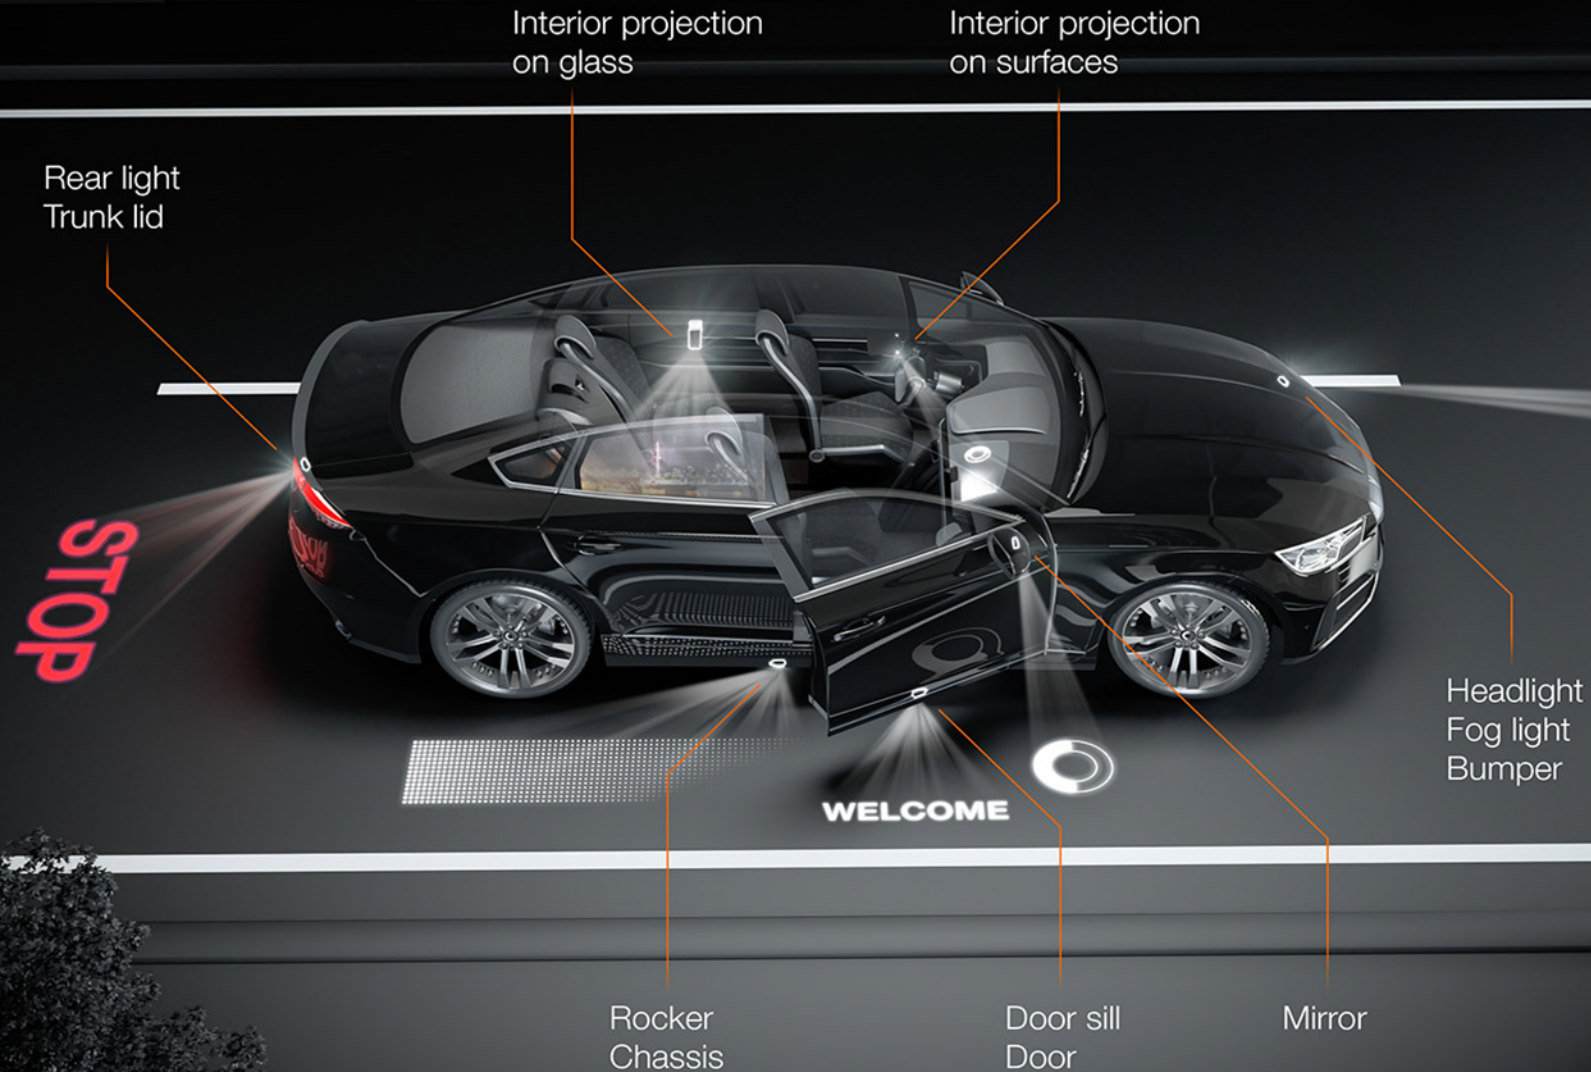

Architainment

LED Projection

Applications around the car

LED Projection

Exterior and interior

In the exterior, compact symbol projectors can be used to create individual welcome scenarios...

Inside the car, projection systems can display personal messages...

...or to extend existing lighting functions with semi-dynamic projection systems.

...on various surfaces.

LED Projection

What we provide and what we need

We provide:

- Application know-how for interior and exterior
- Technology
 - Optics
 - Mechanics
 - Electronics
- Series development incl. typical pitfalls

We need:

- Compact optical concepts, esp. ultra short throw
- New / different light sources for e.g.
 - Matrix applications
 - CCT variation
 - High temperature stability
- Out of the box approach for in- and exterior lighting
