

# MANUELA

## Additive Manufacturing using Metal Pilot Line

<https://manuela-project.eu/>

# H2020 Project MANUELA

- **Services**

- One-stop-shop for **full AM development cycle** including simulation, robust AM manufacturing and on-line process control, characterization, real-time feedback, post-treatment and AM qualification protocols.
- **Both** Powder Bed Fusion Laser Beam (PBF-LB) and Electron Beam (PBF-EB).

- **Cooperation opportunity - Open Call**

- Cover up to **100k EUR** of costs
- No restrictions on size or industry, company in EU or associated country.
- Any or all phases and aspects of metal AM – development of ideas, prototyping, materials assessment, process improvement, etc.
