General overview – Cocoon Medical

Sinclair Product Portfolio

Challenges

General Overview

Cocoon Medical

 SINCLAIR

The cocoon strategy

High demanding markets: Hair removal, fat removal, skin tightening

Deal with big franchises in Spain and well-known international distributors

Own clinics

Key technologies

- ❑ **RF and US cavitation:** high experience and fast time to market
- ❑ **Cryolipolysis:** Emergent technology for non-invasive hands-free fat reduction. High potential market
- ❑ **Hair removal:** ultra-high power laser diodes, with superior performance and lower cost than main key players.

R+D department:

- ❑ Technology, Engineering, Science, Application
- ❑ Key suppliers: Laser diodes, subcontractors, optics, PCBs
- ❑ Patents

stimulator

Challenges

1. Integrate the three companies
2. Find synergies between our products
3. To build the plan for the future.

... to become a market leader
