

EPIC Online Technology meeting on Bio-Imaging 13 February 2023 / 15:00 – 17:00 CET

Chroma Technology manufactures

- high performance optical interference filters
- using sputtering and ion beam technologies
- spectral range from 200nm-3000nm

## Applications

- Laser surgery
- Plasma diagnostics
- Mirrors for laser welding
- Drug discovery
- Confocal microscopy
- Machine Vision
- Point of Care
- Sequencing
- Flow Cytometry
- Remote Sensing
- Colorimetry
- Astronomy
- SWIR
- LIDAR
- RAMAN
- CIE
- Fluorescence

## OEM Support and Services

- Expert Design Services
- Extensive Experience with Life Science Applications
- Rapid Prototyping
- Small Batch to High Volume Production
- Exceptional Customer Service
