Montreal, QC

01 Who Are We ?

Worldwide Leader in Ultrafast Lasers Since 2001

America

Europe

Asia

/ 17 locations worldwide:

- Manufacturing sites
- Support centers
- Applications labs
- Business offices

01 Who Are We ?

Key Facts

Expert manufacturer
in **ultrafast laser**
technology

25 000
Products sold
around the world

Financing capacity
quoted as
« strong » by Banque
de France

40+
Countries served

Innovative & visionary
company,
created in 2001

450+
employees
worldwide

... **17 offices and**
production plants
around the world.

30 000
M² of production
area

01 Who Are We ?

Amplitude Today

2

Business Units:

- > Industry
- > Science

3

Manufacturing sites:

- > Lisses near Paris, FR
- > Pessac, near Bordeaux, FR
- > Milpitas, CA. USA
- > Porto, Portugal

+

- > 5000m², incl. 1700m² clean room
- > Designed for high power laser production
- > Currently operating 1shift, 70% capacity
- > ISO 9001 and ISO 13485 certified

Amplitude Laser Group Headquarters,
near Bordeaux, France

Who are we

Our current manufacturing sites

Pessac

Lisses

Milpitas

Porto

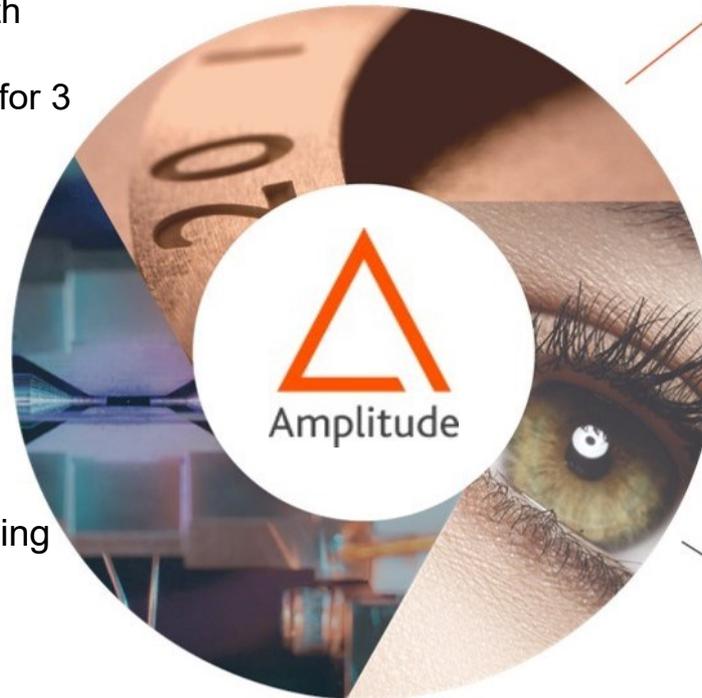

Pessac France: Yb Lasers for industry, Medical and Science
Lisses France: TW, PW, TiSa and Advance ns
Milpitas USA: Pulsed ns lasers, DPSS and Tunable sources.
Porto Portugal: Pulsed Fiber laser, drivers and controllers

3 Main Markets

450+ employees working with the same **passion**, and delivering the **best products** for 3 market fields.

Science

- > Lifescience
- > High Intensity and Energy Physics
- > Spectroscopy and Imaging
- > Instrumentation

Industry

- > Display
- > Semiconductor
- > Consumer Electronics
- > Micro processing

Medical

- > Ophthalmology
- > Protontherapy
- > X-Ray Imaging
- > Medical Device Manufacturing

Thank you!

www.amplitude-laser.com

Created in 2001, Amplitude Laser Group manufactures and commercializes ultrafast lasers for scientific, medical and industrial applications. Leading the international market since its beginning, Amplitude offers a large range of products: diode-pumped ultrafast solid-state lasers, ultra-high energy Ti:Sapphire ultrafast lasers and a full line of high energy solid state laser products. The group consists of three manufacturing locations and several commercial offices in Europe, Asia and North America. Its 425 employees are committed to create and develop innovative lasers, manufactured compliantly with ISO 9001 and ISO 13485 certification standards.
