Introduction

SmarAct Group of Companies

- German engineering, headquartered in Oldenburg
- Global customer base across **photonics**, **semiconductors** and **quantum technologies**
- Full value chain under one roof with over 350 employees
- Three business units: **Motion**, **Metrology** and **Automation**
- Enabling **nanometer-precise** motion and alignment with compact design
- High **customizability**, **modularity** and **adaptability** to extreme conditions
- **Fast prototyping** due to high level of vertical integration and working in multi-disciplinary teams
